## ON THE FOREFRONT OF LIGATURE RESISTANT SOLUTIONS

Accurate Lock and Hardware offers an extensive range of ligature resistant and ADA-compliant products that positively contribute to healing environments. Accurate’s team of experts are dedicated to developing innovative solutions for specific challenges including retrofit scenarios, custom openings and safety compliance. Designed with patient care and staff safety in mind, all Accurate products are made entirely in the USA, which allows the ability to quickly adjust, adapt and produce the best solutions to meet the ever-changing needs of the healthcare industry. Simply put, your challenge is Accurate’s challenge.

# THE ACCURATE LEGACY

The progression to becoming the premier ligature resistant door hardware solution.

**1988** Over 30 years ago, Accurate developed the **Ligature Resistant Safety Knob** that quickly became the industry standard for ligature resistance.

**Non-ADA Compliant**

**2005** Decades later, Accurate developed the **Clutching Lever** to address the ADA compliance mandate.

**Strongly Discouraged in Patient Areas**

**2007** Accurate developed and patented the **Crescent Handle**, once again setting the industry standard, eliminating the transverse ligature risks posed by clutching levers. Around this time, the **Beveled Safety Latch** was created for high-risk environments.

**2016** Accurate introduced the **High Security Mortise Lock**, which is 300x stronger than the Grade 1 standard, for abusive environments.

**2016** In response to a request from the State of NY Office of Mental Health, Accurate introduced the **Paperclip Resistant Crescent** line, which is universally recognized as the premier ligature resistant door hardware solution.

**2017** Innovations that contribute to improving overall patient experience were developed including **SilentPac™ Solutions** and **Custom Etching Capabilities**.

# THE ACCURATE ADVANTAGE

We are committed to innovation and always evolving products to solve a variety of challenges.

**These icons are used throughout this product brochure to identify exclusive upgrades and special product features that may apply.**

**STRONG**  
High Security Mortise Lock

300x Stronger than the Grade 1 requirement

**PAPERCLIP PROTECTION**  
Meets the Highest Safety Ratings

Reduces the chance of patient harm in high-risk areas

**SILENT**

# HIGH SECURITY CRESCENT MORTISE SET

## THE GOLD STANDARD FOR LIGATURE RESISTANCE + ADA COMPLIANCE

Offering advanced safety features, the High Security Crescent Mortise Set is the recommended solution for high, medium, and low risk areas for both new and retrofit installations. Its solid brass construction is designed with institutional strength and durability. This superior lockset comes standard with the High Security Mortise Lock proven to withstand 300x more abuse than the Grade 1 requirement\*. It is also compatible with the SilentPac™ Lever Dampening Disc to eliminate disturbance from door noise and improve overall patient experience.

### PRODUCT INFORMATION

- + The highest level of ligature resistance featuring Paperclip Protection
- + UL Listed 3 Hour
- + Compatible with any standard mortise cylinder (must be ordered with appropriate cam)
- + 626/630 finish standard, anti-microbial plating available
- + Supplied with Torx® Security Screws
- + Available in large backsets for specialty applications (e.g. acoustical doors, specialty stops, etc.)
- + Dimensions: 12¾" high by 4⅞" wide with a projection of 2¼"

### COMMON FUNCTIONS

CH 9145SEC	Classroom, Patient Rooms
CH 9125SEC	Passage, Non-locking Applications
CH 9159SEC	Storage
CH 9158SEC	Seclusion

\*Grade 1 Lock Sets are also available.

# BEVELED SAFETY LATCH

## ADDITIONAL LIGATURE PROTECTION

Beveled Safety Latches were developed to further diminish ligature risks in behavioral healthcare settings. In some cases, the latch bolt itself has been used to anchor bed sheets (or similar) between the door and frame while the door is closed. An upward, downward, or horizontal force from inside the room will cause the latch to retract and release a ligature attempt making it a safe option for high-risk areas.

The Beveled Safety Latch is also compatible with the Push/Pull Mortise Set, shown here.

### PRODUCT INFORMATION

- + Can be specified with all Accurate 9100 Grade 1 Mortise Locks with any trim, or Crescent Cylindrical Locksets
- + Latch bevel on top and bottom diminishes ligature points
- + Whenever the Beveled Safety Latch is specified, locks are modified not to have an anti-pick bolt. Please specify with caution, evaluating every opening for what is most important: safety or security.
- + Not recommended for applications where security is a concern like storage rooms, electric closets, asylum rooms or wherever doors swing out

### COMMON FUNCTIONS

9143BL, 9144BL	Institutional Privacy, Patient Bathrooms
9124BL	Dormitory
9125BL	Non-locking Applications

Accurate Advantage Options + Features:

CH-CYL-CLA

CH-CYL

# CRESCENT CYLINDRICAL SET

## THE SMART + SIMPLE SOLUTION

Cylindrical lock systems are popular in many hospital facilities, and conversion of these doors to mortise style can be labor intensive. The recommended Crescent Handle Cylindrical Lockset offers ease of installation and can quickly solve any retrofit issues with minimal disruption in a live unit for a quick patient safety upgrade.

### PRODUCT INFORMATION

- + The highest level of ligature resistance featuring Paperclip Protection
- + UL Listed 3 Hour
- + For use on cylindrical (ANSI 161) door preparations
- + Furnished with a Grade 1, UL listed cylindrical lock (less cylinders)
- + Fitted for conventional or IC cylinders to preserve existing keying systems or furnished with conventional type cylinders
- + Available in electromechanical functions
- + Available with Beveled Safety Latch
- + 626/630 finish standard
- + Supplied with Torx® Security Screws
- + 2¾" backset standard, 3¾" or 5" available for retrofit or specialty applications
- + Dimensions: 8½" high by 6⅜" wide with a projection of 2⅝"

### COMMON FUNCTIONS

# CRESCENT TUBULAR SET

## THE GOLD STANDARD FOR PASSAGE DOORS

An alternative retrofit option for existing low-traffic openings like closets or storage areas. The Crescent Tubular Lockset is designed for passage applications on non-fire rated doors.

### PRODUCT INFORMATION

- + The highest level of ligature resistance featuring Paperclip Protection
- + For use on cylindrical (ANSI 161) door preparations
- + 626/630 finish standard, anti-microbial plating available
- + Supplied with Torx® Security Screws
- + 2¾" backset standard, custom cover plates available for retrofit applications
- + Dimensions: 7<sup>13</sup>/<sub>16</sub>" high by 4<sup>7</sup>/<sub>16</sub>" wide with a projection of 2¾"

# LIGATURE RESISTANT SLIDING DOOR SYSTEM

DESIGNED WITH PATIENT CARE +  
STAFF SAFETY IN MIND

## PRODUCT INFORMATION

TRACK CLOSE UP

### SEAMLESS

- + Concealed Track System hangs a 1¾" door with a surface applied minimal gap without any exposed anchor points or cavities
- + Concealed Floor Guide keeps door flush against wall
- + Concealed Vertical Rod Bolt locks into track providing privacy with no accessible latch bolt or strike
- + Ligature Resistant thumb turn and flush pull

TRACK CUT AWAY

### SAFE

- + Top door edge not accessible as a ligature point
- + Eliminates barricade tactics and using door as a weapon

### SECURE

- + Privacy function and keyed deadbolt available
- + Includes a clutch override feature
- + In addition to locking in the "closed" position, other positions can be added

FLOOR GUIDE

### SILENT

- + Dampened closure allows quiet operation and prevents slamming doors

### SPACE SAVING

- + Contributes to smaller patient room design saving up to 45% of space on average

# SAFETY PUSH PULL MORTISE SET

## ACCESSIBILITY WITH EASE OF USE

An alternative to the Crescent Handle, the Safety Push Pull Mortise Set is an easy-to-operate ligature resistant solution. Evolved from traditional push/pull handles that are popular in many healthcare facilities, new safety design elements give it a sleek and low-profile aesthetic. The push side allows hands-free operation, while the pull side features easy egress.

PULL SIDE TRIM

PUSH SIDE TRIM

## PRODUCT INFORMATION

- + UL listed 3 Hour
- + Compatible with any standard mortise cylinder (must be ordered with appropriate cam)
- + 628 Satin Aluminum finish standard
- + Supplied with Torx® Security Screws
- + Available in electrified functions
- + Optional beveled latch
- + Custom Pull x Pull option available
- + Dimensions: 7" high by 4½" wide with a projection of 2" on pull side and ⅞" on push side

# CRESCENT MOTOR DRIVE ELECTRIC MORTISE SET

FOR EFFICIENT + FLEXIBLE ACCESS CONTROL

## PRODUCT INFORMATION

### IMPROVED FLEXIBILITY

- + Universal output voltage
- + Can easily be changed from FAIL SECURE to FAIL SAFE to adapt to design variations

### MORE FUNCTIONALITY

- + State-of-the-art monitoring functions

### LONGER LIFE

- + Adaptable to new technology

### SAVE POWER, SAVE MONEY

- + A motor drive lock costs significantly less per year to operate at \$0.25, compared to a solenoid lock that costs \$8.33

### STAY COOL

- + Low current draw produces minimal heat to eliminate "hot levers"

### BE GREEN

- + Low power requirement is ideal for environmentally friendly control systems

### IN GOOD COMPANY

- + The same motor functionality is used by other trusted manufacturers including: Schlage, Sargent, Corbin Russwin, Hager, etc.

## MONITORING FUNCTIONS

**AE Authorized Egress/Request to Exit**

**AM Auxiliary Latch Monitor**

**LB Locking Bar Monitor**

**LM Latch Bolt Monitor**

**SM Combined AM + LB Monitor**

**DPS Door Position Monitor**

**LPF Lock-out Privacy**

LR 7200

# AUXILIARY LOCK SETS

## ADDITIONAL SECURITY

LR 7200 Series Auxiliary Mortise Locks can be used in a variety of applications where additional security is desired. Available with standard or High Security deadbolt, pair with versatile trim options and use anywhere deadlocks may be needed.

### + COMMON FUNCTIONS

LR 7201	Single Cylinder Deadlock
LR 7202	Double Cylinder Deadlock
LR 7203	Cylinder Outside, Thumb Turn Inside
LR 7203i	Cylinder with Indicator Outside, Thumb Turn Inside
LR 7205	Emergency Release, Thumb Turn

2¾" backset standard, other backsets available.

#### ALT-ADA-D with Clutch

Enables a key override for anti-barricade capability to prevent a forcibly held thumb turn restricting access.

For use with 7203, 7205

#### 7200SCi

Cylinder Indicator

For use with 7201, 7202, 7203i

#### LR-ER

Emergency Release

For use with 7205

# SPECIALTY MORTISE FUNCTIONS

## DOUBLE CYLINDER CONFINEMENT ROOM LOCKSET

The vandal-resistant, patent-pending Confinement Room Lockset is designed with a concealed second cylinder. This alternate cylinder is designed to be used when the standard cylinder has been tampered with and is no longer operative. Available with both ligature resistant Crescent Pulls or Flush Pull trim, the double cylinder adds a layer of emergency accessibility.

### PRODUCT INFORMATION

- + Asylum function standard
- + Furnished with High Security Mortise Lock
- + 626/630 finish standard, anti-microbial plating available
- + Supplied with Torx® Security Screws
- + 2-3/4" backset standard, other backsets available
- + Crescent Pull trim available
- + Dimensions: 15¼" high by 4⅞" wide with a projection of 13/16"

### TO OPERATE:

Loosen Torx® Security Screw and swing cover to expose back up cylinder. Key retracts latch temporarily, and the Crescent Pull or Flush Pull allows door control.

CH 9147i

# SPECIALTY MORTISE FUNCTIONS

## STAFF RESTROOM LOCKSET

The 9147i Specialty Function with Occupancy Indicator is designed for privacy applications where authorized access is always needed. Clearly showing when room is in use, it is popularly used for staff restrooms or similar environments where occupancy status is desired.

### PRODUCT INFORMATION

- + Inside thumb turn confirms status of outside indicator
- + Outside lever always rigid, entry by key only
- + Indicator automatically reverts to green (unoccupied) when door is closed
- + Available with High Security or Grade 1 Mortise Lock
- + 626/630 finish standard, anti-microbial plating available
- + Supplied with Torx® Security Screws
- + 2¾" backset standard, other backsets available
- + Dimensions: 12¾" high by 4⅞" wide with a projection of 2⅝"

CH 9142

# SPECIALTY MORTISE FUNCTIONS

## ASNTB MODIFIED ASYLUM LOCKSET

This modified function allows the inside cylinder to lock/unlock the inside handle and conversely, the outside cylinder to lock/unlock the outside handle. Commonly used with electric strikes, the lock is supplied with no trigger bolt.

### PRODUCT INFORMATION

- + Inside and outside handles are independent of each other and can remain locked or unlocked if positioned by the cylinder on its side
- + After egress from unlocked side, door will remain locked (from locked side)
- + Available with High Security or Grade 1 Mortise Lock
- + 626/630 finish standard, anti-microbial plating available
- + Supplied with Torx® Security Screws
- + 2¾" backset standard, other backsets available
- + Dimensions: 12¾" high by 4⅞" wide with a projection of 2¼"

# SPECIAL OPTIONS

# SILENTPAC™ SOLUTIONS

## IMPROVE PATIENT EXPERIENCE

Acoustically engineered to eliminate door disturbance, the award-winning SilentPac™ Lever Dampening Disc makes lever return smoother and slower to avoid the abrupt snapback of handles into place. Compatible with Crescent Handle Mortise Lock Sets, this hardware innovation dramatically reduces noise from opening and closing doors, allowing behavioral healthcare environments to improve overall patient experience.

### EQUAL TO AMBIENT NOISE

Handle operation adds zero decibels.

### SIMPLE INSTALLATION

Ideal for both new doors and retrofit applications.

### MAINTAIN AESTHETICS

Designed to be customizable based on your facilities' needs.

SilentPac compatible ligature resistant products are noted with **SILENT** icon throughout this brochure.

LR-STK

# LIGATURE RESISTANT STRIKE

## ADDITIONAL SAFETY

This ligature resistant strike improves the safety of the overall opening. Recommended for use with the 9100BL Beveled Latch, it can also be used with the CH-CYL Cylindrical Sets, or customized to work with other manufacturers' locks.

**TAPERED LATCH BOLT  
OPENING ELIMINATES  
ANCHOR POINTS  
FURTHER PREVENTING  
LIGATURE RISK.**

# CUSTOM TAILORED SOLUTIONS

## FOR RETROFIT + SPECIAL APPLICATIONS

New door hardware can improve safety standards and bring doors to compliance. Many times, special applications and retrofit scenarios require specific modifications. We are committed to developing unique solutions for the most challenging doors including: custom size and shape plates, ligature resistant handles for exit devices, bit key institutional locks, and a wide variety of special applications.

### CRESCENT CYLINDRICAL SET

Furnished with custom plate for a door with a window

### GLASS PATCH CRESCENT PULL

For reception area glass doors

### NARROW CRESCENT PULL

For narrow stile doors

# CUSTOM ETCHING

## PERSONALIZED DETAILS

Most trim options can be designed to match any room aesthetic or theme in an effort to create a more inviting, soothing, and personalized healing environment. From original artwork, to favorite characters, or corporate logos – possibilities are endless.

RMS Program ligature resistant products are noted with QUICK SHIP icon throughout this brochure.

# PAPERCLIP PROTECTION

## MEETING THE HIGHEST SAFETY RATING

The presence of paperclips in even the most rigorously monitored facilities can be difficult to control. It can be assumed that almost anything in the patient environment can be compromised by a paperclip. Accurate has evolved the design of its Crescent Handle Mortise, Cylindrical and Tubular Sets to address this concern for high-risk areas and offer paperclip protection a standard feature. All locksets have withstood the rigorous paperclip testing by the NYS-OMH<sup>1</sup>, achieving the highest level of ligature resistance.

# CRESCENT HANDLES

# KNOB + LEVER MORTISE TRIM

## OPTIONS FOR LOW RISK AREAS

### PRODUCT INFORMATION

- + Solid brass construction designed with institutional strength and durability
- + 626 finish standard

#### MLSK SAFETY KNOB

- + For use with mortise locks and tubular latches
- + Deep detents fit to fingertips, maximize capacity to turn and pull without compromising safety and facilitate ease of use
- + Non-ADA Compliant
- + Dimensions: 2¾" high by 2¾" wide with a projection of 2¼"

#### LCSM SAFETY LEVER

- + Use with caution, not recommended for high risk areas (specify the Crescent Handle for safest solution)
- + Designed with clutch mechanism that releases lever into the downward or upward position when under pressure limiting ligature opportunities
- + Dimensions: 3" high by 6⅛" wide with a projection of 1⅞"

# THUMB TURNS

### PRODUCT INFORMATION

- + Solid brass construction designed with institutional strength and durability
- + 626/630, anti-microbial finish available
- + Furnished with Torx® Security Screws
- + Customizable based on application

#### ALT-ADA-D THUMB TURN

- + For use with locks with a deadbolt, thumb turn has a wider rotation
- + Dimensions: 3⅝" high by 4½" wide with a projection of ⅞"

#### ALT-ADA-P THUMB TURN

- + For use with locks without a deadbolt, thumb turn has smaller rotation
- + Dimensions: 3⅝" high by 3¾" wide with a projection of ⅞"

Designed for Schlage  
Tubular Deadbolt

#### CUSTOM ALT-ADA THUMB TURNS
