LR-EX SERIES LIGATURE RESISTANT TRIM FOR EXIT DEVICES
TAILORED SOLUTIONS TO BRING FACILITIES TO COMPLIANCE
LR-EX SERIES

Accurate’s Gold Standard Ligature Resistant Crescent Handle Design can now be used to retrofit exit trim of panic device hardware.

BRAND AGNOSTIC
- Works with most manufacturers’ panic device trim to create a ligature resistant door opening solution

MAINTAINS RATINGS
- Does not affect ratings of existing trim.
- E.g. If the trim being housed is fire-rated, that rating remains

FLEXIBLE
- Designed to be compatible with commonly used exit device trim, door prep does not change

LR-EX-CH
The original exit device trim components are re-used within the ligature resistant housing.
SMART SOLUTIONS TO COMPLEX ISSUES

While working with leading agencies and institutions around the country, Accurate continues to develop solutions to address compliance requirements on behavioral healthcare facilities.

The Challenge:
Openings with Exit/Panic devices having non-compliant trim on the secure/outside of the opening

The Solution:
A customized Gold Standard Crescent Handle can replace the secure side trim on exit devices like the Von Duprin 98/99 series.*

*The original exit device trim components are re-used within the ligature resistant housing.
LR-EX Series Crescent Handle Options
